## Editorial Board

"Dream Weaver" is a constant reminder that all our dreams can be carefully chosen, weaved and adorned. Life without dream is a life of lacking and limitations. Hence we must dream and seek.

The school magazine Dream Weaver recognizes and appreciates students' achievements. It is a launch pad for budding artists, writers, thinkers and innovators. Allowing students to blossom naturally and applauding student's efforts and creativity by providing them a canvas for free flow of ideas for higher growth and enterprise is the humble aim of this magazine.

It is hoped that through the pages of Dream Weaver many students will realize and attain their potential and the magazine will act as the first portfolio of many eminent personalities this school produces.

Happy Browsing.

I am glad to learn that Delhi Public School HRIT Campus is bringing out its Annual Magazine 'Dream Weaver'.

I have been given to understand that DPS HRIT Campus is an esteemed institution in Ghaziabad. It has also strived hard to impart quality education to students to ensure their all round development. I am sure that the school magazine would go a long way in developing creativity in all aspects of writing skill amongst the students.

My best wishes for the successful publication of Dream Weaver.

## Chairman's Message

I am happy to learn that Delhi Public School HRIT Campus is ready with a sequel of "Dream Weaver". From a news letter of a few pages **Dream Weaver** has grown in size, content and form much like the school itself. Delhi Public School has from the beginning been an institution to reckon with. Recent CBSE results, a successful affiliation with CBSE International, British Council ISA Accreditation, and quality performance of students on and off stage all speak volumes of the growth and achievements of the school.

A school is a mere building until quality people in form of hardworking and devoted students and continuously focused faculty members give momentum to every dream. I congratulate the Principal Meenakshi Chatterjee, the team of staff members and the students for being such a formidable team. I have no doubt that with the yardstick of success they have set themselves with this school is already set to march in the path of glory.

I pray to almighty for continued success, health and happiness of each member of this family.

Keep Growing! Keep Believing.

## From Principal's Desk

I am pleased that you have taken time out to go through the pages of **Dream Weaver**. It is my hope that you find the pages of the magazine helpful to know about the activities, workshops, competitions and initiatives our students engage in to develop their interests and potential.

Delhi Public School HRIT Campus is a wonderful place for students to grow academically, learn various skills, develop leadership and have a meaningful educational experience.

Our curriculum, course offerings and extra curricular offerings are second to none. We strive to create a dynamic and progressive school that provides opportunities of growth respecting the innate talent of each child. For us each child is special with unique attributes, qualities, talents and abilities. It is our endeavor to help each student master their highest potential in the years of their schooling with us.

The hallmark of **Delhi Public School HRIT Campus** is the unique learning environment which emerges as a result of co-existence of **CBSE** and **CBSE International Curriculum**. Here, we combine the strong theory based knowledge of the Indian system with practical applications, experiential learning and skill development of the international system.

Throughout the pages of "Dream Weaver" you will get to know about various experiences we have put our students through to develop creativity, spirit of adventure, patriotism, leadership, physical health and knowledge.

It is with a sense of great pride and pleasure that I invite you all to check out **Dream Weaver** which I promise will further weave you with the progress and development of this prestigious school.

2. Mallaica Chatterjee - CGPA 10
3. Palak Gupta - CGPA 10

The Roll of Honour recognizes students who have excelled in academics in Senior School Certificate Examinations. Congratulations!

God may grant all our students continued success to enhance their education.

DPS HRIT campus bagged the First position in both under 17 and under 15 categories of National Children Science Congress District Level 2014.

## Inculcating Right Attitude

The triumph of scoring a perfect 10 CGPA had forever been a dream in the pipeline. I am very sanguine that many of my younger friends want to treasure the same experience.

"Eat, sleep and repeat! Well, that was certainly not my strategy. Nor will I expect the same from anyone. **Study Daily** and this is a must. Study each subject for 30-40 minutes. Regularity is the key to success. Make the NCERT books your best friends. Know them like you know your mates. Never believe on refreshers or any other short cuts.

**Attend school regularly** and always engage yourself in all scholastic and co scholastic activities. Often we think we can study better at home at own pace. But school teachers being experienced can judge content of text from examination point of view. Following them reduces the last minute pressure. Participating in co scholastic activities wholeheartedly helps in getting better grades in these areas which in turn help in up gradation of at least two subjects.

**Always cast an eye on mistakes.** Treat mistakes as errors. Erase them or cut them from your life. Begin again. Failure is a great teacher. I think failure is like illness. You simply discuss it with your doctor (here with parents or subject teachers) and take precaution as remedial steps, like you take medicines. Soon you will be back to strike again.

**Do not duel on doubts.** Check at that moment and overcome the doubt. Keeping doubts leads to tons of increased doubts.

Lastly, **Believe!** Believe you can do whatever you aim for! None can stop you from your chosen path.

**Fly high because sky is not the limit any more!**

*According to Bempechat, the skills most essential for success aren't academic ones. It's the smartest kids who often fall apart at the first sign of failure. Being smart isn't necessarily going to help you. But knowing how to pace yourself, how to keep going when you're completely stuck and how to ask for help will.*

Much Love

## Scoring a Perfect 10

## Scoring Perfect 10 was not difficult as my mission was learning

I am Palak Gupta from XI-Science and I scored a CGPA 10 in class X. I would say it wasn't an easy task as there was a good competition among my classmates but from the very beginning of class X I had set my target of getting CGPA 10 in boards and at last my determination made me achieve my goal. Other than this many people have contributed to my success. First of all, I was very motivated when some of my senior friends scored a CGPA 10 in academic year 2014. My parents whom I consider the best parents were of immense help whose mental support and care became the biggest reason behind my success. Even a good support from the side of my teachers made me an achiever today. A healthy environment both at school and home, time management and working on everyone's expectations are some of the secrets behind achieving my goal. I never took any kind of stress or tension regarding my studies rather I worked hard on my physical and mental development. I have a fixed schedule. After getting back to home from school, I have a sound sleep, good hours of study and play. All this keeps my mind fresh and active. I was regular to school and always tired to gain more and more from my teachers and colleagues. I always try to do my best in whatever work I perform. This was not less than any challenge for me. I worked hard on my performance and made my teachers and parents proud by scoring CGPA 10. Now I look forward for the same kind of results in the coming competitions.

Palak Gupta

Back in July, 2012 that I got into this renowned school and honestly at first I had the feeling of being a particle in the desert. It however turned out well within a week and I felt better like it was a big family. I was new and all my friends already had secured respectful position in their fields. My goal wasn't to score the highest. Interestingly it came out to be a byproduct to the interest and hardwork that I eventually developed. And after all interest is all that one needs to accomplish to attain desired goals. Another thing I found amazing was about the need for motivation. The word remains a term to be still. You never need motivation when you are determined and have interest in something. Somewhat like why you don't need motivation to play everyday. Also, it's not the number of hours that matter but how effectively one studies. In the end it all comes down to the support one gets and never in my life did I get that support to the level I got in these years from my parents and teachers. Teachers' support has been extensive in every phase of my life. Every time I felt helpless, remorseful of my marks it was their kind and powerful words and support that throttled me forward again. It wasn't all very easy to get CGPA 10 now looking back it feels great conjuring up all the difficulties I faced and how I got through them!

# Our Journey to International School Award (ISA)

At Delhi Public School HRIT campus our commitment to provide world platform to our students took us to the British Council's International School Award division. And what an amazing journey it has been since! The first coordinator's conference opened a host of opportunities for us. The task of completing multi disciplinary projects, with a number of countries to explore and to involve the entire school was challenging.

Looking for an international partner school, collaborating, sharing and researching on topics of Science, Arts, Environment and Social Science from the prospective of another country, their culture, their values and their needs was truly a new learning experience. Transdisciplinary projects not only proved the interdependence of subjects it also brought the teachers of the school together. Our teaching has certainly improved. Throughout the year, we had a happy school where every one was keen to learn, reflect and share.

Of course during our International School Award journey there were moments of doubt, performance pressure, tight schedule, and the task of keeping the international partner motivated but never a dull moment.

Carrying out two collaborative projects with a foreign school in Kathmandu, Nepal was a unique experience. It made us evaluate several of our policies and focus on values of global brotherhood and global citizenship. It also helped us to enhance our ability to co exist in an ever changing competitive world. This broadened our horizons. Today we are a more confident school. Dedicating a song and dance to a foreign school on 'You Tube' was one of the finest moments of this partnership which I shall cherish. The recent news of quake disaster in Kathmandu, Nepal set our students to search for the well being of students of our partner school at Kathmandu. This is a clear indicator of global human values which have percolated among the students through the International School Award journey. Naturally we feel extremely satisfied and proud.

The student's enthusiasm knew no bounds and ofcourse they learnt, enjoyed and appreciated. There was satisfaction and pride in their efforts. Parents too had a new experience, different from the mundane. They are happy that the school is growing and doing things differently.

We have a changed prospective now. We no more think what is happening in the neighborhood schools? We have a world vision. We look forward to exchanges/appreciations from schools in another part of the world. This experience is very new to us and very pleasurable. We now look forward to many new partnerships and exchanges which shall further bring the best in us.

# British Council Accreditation Journey

To hobnob with internationalism in school education and to expose ourselves to varied experiences we registered for British Council's International School Accreditation Programme. The task was to complete atleast eight whole school projects keeping with international learning, multidisciplinary approach, proper evidence of student participation and both student- teacher satisfaction. It is a privilege to share experiences of our all eight projects.

1. **Global Village at my Backyard** We had a great pleasure to explore countries like China, Pakistan, Bangladesh, UK, France and USA. We are now acquainted with their national flag, culture, costume, cuisine, art, history and geographical location. Since the project was taken up during the summer camp, I must say we had most wonderful holidays touring these countries.

2. **Democracies of the World: My Government, My Choice** was rather a strong topic. The senior students did an extensive research of three democracies i.e. India, Nepal & USA. We did a comparative study to know how these democracies thrive. We participated in quiz competition to test our knowledge wherein our parents were also invited. A CD of the quiz was sent to Universal School, Kathmandu. This appreciation swelled our hearts with pride.

3. **They Came and they Conquered: Life and work of Martin King Luther, Nelson Mandela and Mahatma Gandhi** gave us the opportunity to compare the work and influence of these great leaders. We extensively researched and learned about apartheid movement. Now all the students of this school are ambassadors and advocates of racial equality.

4. **Brotherhood in the Neighborhood** was all about knowing the country of our partner school at Kathmandu Nepal. This project made us more sensitive towards the Himalayan country. We dedicated a song and dance to our partner school. You can have a look on YouTube <https://www.youtube.com/watch?v=GHaLwalbj-s> and <https://www.youtube.com/watch?v=WzxBICL2VDA>.

5. **Blow Hot and Blow Cold** took us to the deserts of the world Sahara and Gobi. Students compared temperature, life, population, vegetation of these hot and cold deserts. We all understood the true meaning of integration of various disciplines.

6. **Money Matters ! Yes! Mathematics, life science and social studies in the same class.** Money matters enabled us to recognize and identify currencies of few countries, understand exchange rates and be able to convert values of different currency to Indian rupees and know the denomination of smaller unit of different currencies. So engrossing was this topic that often primary school students have been seen checking each others knowledge on exchange rates during their journey in the school bus.

7. **Animal Kingdom** - Do you think Kindergarten kids got left behind? No not at all they learnt about national animals of different countries, food and habitat of these animals and grew love and concern for these animals. They now know about the protection of endangered animals. Their bonus was their visit to zoological garden with their teachers.

8. Another Kindergarten project **Folk Tales** gave the tiny tots an exposure to the world of folktales. Stories of Goldilocks, Arabian Nights and Momotaro are their all time favorite. You may be pleased to check out on how wonderful these kids looked during the fancy dress competition where they were dressed as different characters from the folktales of different countries.

Working for ISA created the right environment in our school. Today we have world vision. We are growing empathy with our brothers in different countries. We think and behave globally. We are more responsible and certainly more equipped to handle competition. Now the World is our Oyster!

# Enrobing Mantle of Responsibility

An investiture and valedictory ceremony was held in the premises of the school at the morning assembly by evoking Lord Ganesha, the remover of obstructions. The investiture ceremony is one of the first momentous occasions of the school where names of newly elected members of the school's council are announced in public and the council members resume various responsibilities. The school's council for the session 2015-16 will be led by Head Boy Ashwin Vats and Head Girl Pragya Verma. All the members of the council took oath to maintain discipline and assist teachers in their pursuit of excellence as the members took away their badges.

# The School Captain speaks.....

It is a proud privilege for me to be the Head Girl of this highly esteemed school in which I have been studying for the past five years.

I inaugurated as a very common girl with common thoughts and ideas but I wanted to soar in life and this immense institution helped me to stir the smooth sand of monotony. They made me realize that a common man thinks of comfort whereas a superior man always thinks of virtue. I started to imagine with all my mind, believed with all my heart, worked hard on obstacles, doubts and mistakes with dedication, and achieved what I wanted to be. I registered myself with the fact that "The best way to gain self-confidence is to do what you are afraid to do". This building which has four walls with tomorrow inside enlighten my path and overwhelmed me to say "I am not designed to come second or third. I am designed to win".

My dear friends, be confident, too many days are wasted comparing ourselves to others and wishing to be someone we aren't. Everybody has his or her own strengths and weaknesses and it is only when you accept everything you are and aren't that you will truly succeed.

I am blessed to study in a British Council and CBSE I affiliated school where the ambience is filled with dreamers and doers, the believers and thinkers.

My friends, everyone has a potential to be a leader because leaders aren't born they are made. And they are made just like anything else, through hard work. So recognize the leader within you as the task of leadership is not to put greatness into people but to elicit it for the greatness is there already. And also remember the great words of Jim Rohn, **The challenge of leadership is to be strong, but not rude, be kind, but not weak, be bold but not bully, be thoughtful, but not lazy, be humble, but not timid, be proud, but not arrogant, have humor but without folly.** So be a leader, Demonstrate what's possible, don't create followers but create more leaders and be the chief but never the lord.

I assure to do my best and to do full justice to the responsibilities given to me.

Pragya Verma  
School Captain

# Annual Extravaganza

Former Chief of Army Staff Gen. Dr. V.K Singh (AVSM, PVSM, YSM, MP) Minister of External Affairs and Minister of State (Independent charge) from North East Region releasing the School Magazine "Dream Weaver" in presence of Er. Anil Agarwal Chairman, Er. Anjul Agarwal Vice Chairman and Meenakshi Chatterjee Principal.

Annual Extravaganza 2014 "Sambandhita-A Saga of Relationship" was a much talked affair in the town. Former Chief of Army Staff Gen. Dr. V.K Singh (AVSM, PVSM, YSM, MP) Minister of State of External Affairs and Minister of State (Independent charge) from North East Region was the Chief Guest of this splendor. Students of the Primary Wing presented odes to various relationships. Bringing out love, affection, duty, responsibility and emotion of every single relationship. In its full grandeur the students brought out relationship with mother, father, brother, sister, teacher, friend, animals as pets God and Country leaving parents mesmerized and tied to the seats. The audiences were taken through each of this relationship connected with tiny thread of affection bringing tears of joy and smiles of happiness remembering ones relationships.

During the Annual Extravaganza 2014 students of the senior wing presented musical ballet *Panchbhootam* showcasing that the Divine reveals the glories of this universe to mankind through Prakriti or Nature.

The entire cosmic creation begins from the point of the Panch Bhutas or the 5 elements. They are Earth or Prithvi, Water or Jal, Fire or Agni, Air or Vayu, Ether or Akash. These five elements contain five characteristics.

When in harmony with standed the human soul, nurtures life but a conflict and imbalance can unleash an infinitely huge wave of destruction and all consuming rage.

### EARTH

Vast Green dharti, with your trees,  
That shed like tears on your face.  
And the lonely standing grass  
Dance to the melodies of beings  
That dwell on your polished ground.  
Oh table crafted by gods,  
Providing abode to all.

Earth Prithvi is the densest element and is the mother that sustains and nurtures life. She symbolizes stability, fraternity and endurance. She is reliable, peaceful and tranquil. Life in form of plants and animals thrive here in abundance bringing beauty and joy. It is this joy that makes the planet a heaven for celebrations. She is the strengthening foundation of our race.

### AIR

Fast blowing pawan, with your  
speed,  
Flowing like the seven seas.  
The clouds you sail on your decks  
Cry hard with joy and give food.  
Bearing seeds of spring with you,  
Oh viator of domains,  
Vaayu's breath, carry my words.

Air can easily be a roaring hurricane and it can be a playful breeze. Music in general is a representation of air as sound is carried by the wind bringing life to music as it blows. Air is the breathe of life, the joy of clear communication and the sharpness of a quick intellect. It is the truth that dwells within our spirits. Who amongst the wise can tell the mind of the wind.

### FIRE

Mighty Agni, with your flames,  
Burning like men's love and rage.  
Carve Surya's chariot to wake  
The realms of universe.  
Whose cold heart craves for your  
heat.  
Oh candle of rituals,  
Light my words for all to read.

Fire Agni is the blazing element that preserves life by providing warmth or destroys it's all consuming furry. Fire is hailed as an important element in Hindu mythology, Chinese fengshui, native American Lord and western pageant traditions Tamsoma Jotirgamaya. Lead me from darkness to light.

### WATER

Lovely just Jal, with your drops,  
Like all five oceans' deep depths.  
Giving life, to each man's throat.  
Make mercurial Indra's bow,  
That flows life into the graves.  
Oh precious dew of the rose,  
Showing life to rich and poor.

Ever see a droplets litter against the windowpane or tap dance of rain. Ever see a graceful soothest movement of wining river, the way out beauty of a waterfall or the effortless movement of the waves. From her movements she unleashes her inner energy. From the singular droplet to the crescendo producing wave, she defines the music of all form both solo and the vibrancy of orchestra. Ever hear water drip from a forest or the rhythm of a rain. Ever hear the pitch and roar of a waterfall.

### SPACE

Handsome Aakash, with your heights,  
Like infinity's pillars.  
Inconceivable to most  
Raise the bar of victory.  
Giving canvas for the birds.  
Oh, garden of Surya's trail,  
Giving wispy domes to earth.

Space supposed to have been created about 13 billion years ago is a boundless region of the infinite consisting of the unlimited and incalculable dimensional realm of our cosmos. This continuous expands extending in all directions contains all matter.

# Conflab with the Web Rangers

Mallaica Chatterjee and Aviral Sharma students of class XI got an opportunity to attend Google Fair. Here they are in a conflab with Pragya Verma, school captain. Heart to heart from the conflab.

**Pragya Verma:** Why are you called Web Rangers? What is your task as rangers?

**Web Ranger Mallaica:** Indeed it was our privilege to be part of the google fair where we learnt to protect ourselves and others from internet frauds and crimes. Now on Aviral and I are committed to take their task forward like Rangers. So this title of web rangers has been confined on us.

**Pragya Verma:** Would you share some of your learning's through the pages of "Dream Weaver"?

**Web Ranger Aviral:** Google, a very popular search engine came together with different schools to create awareness about cyber crimes, cyber theft, phishing, digital foot prints and how to have strong and safe privacy settings. Being aware and alert are ways to protect ourselves from such risks. Awareness protects users from internet crimes.

**Pragya Verma:** A very common thing now a day is identify theft in the internet world. How can we be protected?

**Web Ranger Mallaica:** Indeed identify theft is very common these days. The enormity of such crimes can range from simple pranks to frauds and crimes like kidnapping, blackmailing and even murder. To be safe all internet users must have very strong password which includes minimum of eight digit characteristics, a mix of symbols, letters and numbers. To be more safe users should avoid same password for different websites. Users must understand the extent of crimes that may happen to them or their loved ones because of their ignorance.

**Aviral:** May I add

Parents may sometimes feel that internet is safe since children have access from home. However making unknown friends on internet and exposing our location, photos, personal information and other details may be a matter of great risk. Making unknown friends on facebook, replying to unknown people's messages, agreeing to personally meet someone for the first time through internet, sharing bank account and other personal details are all unsafe behavior which may appear to be harmless but cause grave risk. Through this dialogue I appeal to all readers to increase knowledge about cyber security before going on line.

**Pragya Verma:** Is there a way to know whether the information available on a website is true?

**Web Ranger Mallaica:** This is a very relevant question Pragya. Yes of course before believing on any information on any website we should find whether the information is shared by reputed site? Can this information be cross checked? Is the information so lucrative that it appears to be illogical? Does the website require some of our personal details which we are not comfortable sharing. Self answering these basic questions reveals a lot about the site and whether we should further progress or not.

**Pragya Verma:** What would be your next step as Rangers?

**Web Ranger Aviral:** Before attending programme I knew about cyber security and password confidentiality but I never knew about the crimes we could unknowingly expose ourselves to when we carelessly use internet. The idea of this dialogue is not to care but as a Ranger to create awareness and keep family and friends safe.

Internet crime or internet bullying may happen to anybody. Such matters should be reported immediately to guard against further crimes. As use of internet cannot be curtailed we should be aware as to what information we are putting on the web for all to see? Is it required? I would like to take this simple learning to all my friends and protect future crimes from happening.

*Tree Plantation*

*Plant a Tree - Plant a Life*

Delhi Public School HRIT Campus along with the Inner wheel club of Ghaziabad North organised plantation day at the school premises by planting one hundred saplings around the school campus. Ms. Sugandha Bharti President of the club, Mrs. Deepanjali Agarwal Patron of the school and Mrs. Meenakshi Chatterjee Principal with other members started the programme which was supported by students and teachers. A number of separate activities were conducted to make students of Primary school learn about importance of plants, plants with medicinal values and impact of deforestation. Pre-Primary students took away cut outs of different plants while senior students took oath to protect the environment. Patron Deepanjali Agarwal said such activities promote children to be responsible towards the environment.  
 "Only when the last tree has died, the last river has been poisoned and the last fish has been caught, will be realized that we cannot eat money"

*Visit Vista*

Students of Pre Primary and Primary visited the Doll Museum, Delhi where they saw craftsmanship of highest order in making dolls with a variety of abilities. Awe struck students also saw dolls presented by different countries wearing their National Costumes. Various Educational trips are organized in the Pre Primary and Primary wing to make students familiar with the places of importance and learn lessons of brotherhood, togetherness.

# Musing

From the time I have admitted my wards in the school I am relaxed because of the teachers and respectable Principal Ma'am who guide and nurture my children. DPS HRIT has a fully managed programme for all the students of each and every class and create a better environment for every student. I am pleased with the fact that various co-curricular activities like games, swimming, skating, music, and dance are undertaken.

Parents of Anshika and Anika Class III

DPS HRIT campus gives platform to the students to exhibit and verbalize their imagination, originality and talent through activities and games. The school helps students to explore new things. I am glad that my ward is also a student of the best learning temple. We appreciate and would like to thank each and everyone for all the care and efforts you have given us especially Ruchi ma'am and Sonal ma'am.

Parents of Anvisha Chaudhary Nursery

DPS HRIT provides children with healthy, safe and secure environment. My daughter Annie Singh & son Arnav Singh are performing really very well in all academic & co-curricular activities. It is all because of the hardwork put in by the teachers.

Parents of Annie Singh (IV) & Arnav Singh (VII)

We are delighted and very grateful for the time & love our ward has received over the years in DPS HRIT Campus. A special thanks to Principal Ma'am for encouraging, supporting & keeping Bhavik focused on target throughout these years. We appreciate for all the efforts, love and interest given by each member of DPS HRIT Campus.

Parents of Bhavik Kohli - II

The school gives a pleasant and safe environment to all students. As a parent I feel I can approach the school with any concerns that I might have. The school nurtures all children and offers what is best for them. The classrooms are well equipped with current educational technologies. I am delighted that my child is part of this institution. All round development of my child is praise worthy.

Parents of Kanishk Verma-VI

The school has helped in making my child confident by encouraging kids to participate in stage activities. Teachers are constant motivators who help my child to grow each day. We as parents realize and appreciate the school's efforts. Thank you for all your support and love.

Parents of Ayush Gautam-Prep B

Thank you so much for grooming our child so well and putting in your efforts and hardwork. "DPS HRIT Campus Rocks"

Parents of Vedarth Sharma-Prep B

Order, unity and continuity are the learnings of DPS HRIT campus. It feels best that my son is a part of this institution. My best wishes for "Dream Weaver"

Parents of Krishna Kumar

I feel proud to be a part of this institution because I realize that this school is really an example of a genuine place where our children go daily to learn get trained for professional & social life. Hats off to all the teachers who continuously motivate our children & inculcate in them a habit of being honest, truthful and sincere in their life.

Parents of Maanvi Mittal-Prep A

DPS HRIT encourages students for various activities. It feels good to see that my ward is eager to learn and ready to take on each and every challenge. I personally thank to Principal and faculty of DPS HRIT school for their hardwork and making future of their students bright and successful.

## विजि (DPS HRIT GHAZIABAD)

Students of DPS HRIT Campus were all enthralled to attend an opportunity of visiting nearby Army cantonment and see various equipments and war trophies earned by the brave officers and jawans of the Indian Army during various operations. Army tanks, rifles, multiple short grenade launchers, 84 mm rocket launchers and anti tank guided missiles etc caught students' attention at a special event under the banner of "Know Your Army". A special career opportunity lecture was also organised for the students of Class XI and XII to know various entry schemes to join the Indian Army as an officer and serve the nation. The students and staff members appreciated the goodwill gesture of the Indian Army to come closer to their civilian counterparts.

## WHAT IS LIFE?

A rich man burst into laughter and said  
"Money is life".  
A poor man feels bad and says  
"Life is a struggle in which we have nothing only sadness".  
A lazy man dreaming in his sleep and said  
"Life is a bed of roses to sleep only in it".  
A sadhu in his speech said and felt in his exile  
"Life is a way to reach and pray God".  
A wise man thought about something and said  
"Life is an unsolved mystery".  
A student passes his time studying and said  
"Life is a way to acquire the knowledge & information".  
I say "Life is precious. Given by God to us to live happily and  
Acquire knowledge as much as you can".

## FAMILY RHYME

There's certain kind of closeness  
That only families know.  
It begins with childhood trust and  
And increases as you grow.  
It's a very special feeling to know  
Your family is there.  
It's a tie you can rely on, a bond  
You will always share.  
As a member of this family we know  
That we belong.  
We are proud to say we are family,  
Together we are strong.  
Of all the blessings we may have, our  
Family means the most.  
And whether we live near or far  
That bond will keep us close.....

## THE SUN

The Sun gives us light,  
And keeps the surroundings bright.  
Plants make their food with the help of Sunlight,  
When the Sun sets it is night.  
Every morning I look at the sun,  
And have lot of fun.  
I like a sunny day as I can stay outside,  
Leaving the worries beside.  
If there is no Sun it will be dark everywhere,  
And nobody will find their way anywhere.

## MY MOTHER

She is short & fair

Always smiling full of care  
With a voice very sweet  
And a home very neat.  
Gives support when I need  
A true friend indeed  
Faces challenges for me....  
Gets up early, hardly rest,  
Prepares me for life's tests  
Her virtues match with no other  
Yes, she is my mother.

## MY DEAR MOTHER

You taught me how to walk,  
You taught me how to talk,  
You provided me with the roof over my head,  
And always made me sure of my butter & bread.  
You taught me morals,  
You taught me how to pass my orals,  
You taught me the meaning of living,  
You taught me all about giving.  
You always go out of your way each day,  
You always listen to what I say,  
Whenever I have had issues,  
You have always been my tissues.  
All these words are perfectly true,  
Oh! My mother I really love you.  
I am so very thankful to have a mother like you,  
With your kindness and all that you do.

## DPS HRIT CAMPUS MY DREAM SCHOOL

It taught me to steer away from envy,  
Taught me have faith in my own ideas.  
Gave me strength not to follow the crowd,  
Taught me secret of quiet laughter,  
Taught me to beware of too much sweetness,  
Taught me to stand and fight against wrong.  
Gave me the courage to be patient,  
Taught me how to laugh when I was sad,  
Taught me to be gentle with a laugh,  
And tough with the wrong.  
Taught me that for every enemy  
there is a friend.  
School is not the end but a journey ahead  
I am proud to be a part of a school  
Called..... Delhi Public School HRIT Campus

## ADVENTURE OF BUNKING

Bunking is a passion,  
Which needs a lot of compassion.  
Danger is at every turn,  
This is an art one has to learn.  
Teachers think otherwise because they are  
mature and wise.  
If they find you missing in class,  
They would think you bunked. Alas!  
Thus, when you are caught  
No excuse you sought could save  
You from punishment you get  
One who never bunks class, calls you a fool  
Because you break the rules of the school.  
With all the troubles you miss the class,  
You move around with the pass.  
But when exams are near  
Nothing in your mind is clear.  
You try and try but it's too late  
As bunking has already sealed your fate.

## THE STORY OF 'HERS'

This is the story of a girl who was born in a family as a star,  
but a disease took her from light and sound too far,  
Mum was sad and Dad was distraught  
What to do now they didn't have a single thought?  
One ray shone when mum read aloud about  
A deaf blind girl who learnt how to write and read aloud.  
Father took her to a teacher,  
Who unfortunately couldn't teach her that's another matter.,  
A doctor advised her father to write for institution "Perkins",  
Disappointed he wrote but was not so keen,  
Then came a letter with the news of a teacher,  
Who will teach her from water to heater,  
Some months later came the lady teacher,  
Who taught the girl with finger games,  
The girl didn't know about the teacher's teaching fame,  
She learnt to speak and then graduates,  
She for sure knew her teacher was there to change her fate,  
The lady became feminist and prestigious in women's list  
Do you want to know the name of this girl so bright?  
She was 'HELEN ADAMS KELLER' who learnt to fight.

## "DETERMINATION DETERMINES OUR DESTINY"

Some people are of opinion that our destiny is out of control. That our destiny has been pre-determined and we have no choice in the matter. Some believe that God is responsible for our destiny and future. Whatever will be, will be and we do not have power to plan or change our future.

Others believe that we have our own remote control in our brain to change the things and destiny. Bold, determined, smart, focused and mentally stable person wishes to achieve anything through the magical power of firm determination.

Our "Determination" determines our "destiny". Weaving Dream and achieving our goals is not a straight journey. Struggle, enthusiasm, hard-work, stability and focus are the keys to open the door of success. As Mahatma Gandhi said- "Every worthwhile accomplishment, big or little, has its stages of drudgery and triumph; a beginning, a struggle and a victory".

We should never be the slave of circumstances or nature. If we take a step forward our goal, nature will come up to help us with open arms.

"Determination gives you the resolve to keep going in spite of the road blocks that lay before you". Denis Waitley  
Be a "Dream Weaver" and stay determined to change your "Destiny".

## OUR EARTH'S OUTLAY

She used to be wrapped in the hues of blue & green with  
mysteries tangled in her roots.  
She had melodies wonders flowing through her valley folds, alas!  
Now they are as silent as a seed enclosed in a fruit.  
The flora had her hair so dense & pure, twingled by the wind like  
Vidin strings.  
Cascades highlights like blonde in brunette, it changed shades in  
autumn and spring.  
Her eyes held the universe as they twinkled like balls of silver  
dipped in glitter.  
Now it just reflect the teary film for everything  
She suffered, all the pain so bitter!  
It starts from those crests so high & those  
Through so deep, like the curves on her waist,  
They were glorified by the tall trees & birds  
Awaking life with their twitter.  
Look how she stands embarrassed of her barren  
Nakedness now, for all her leaves are now curled & withered.  
She raised, protected, fed & nurtured her child,  
With the serenity of a mother's heart.  
Little did she knew that this child would grow  
Into a man & slit her throat apart.  
Now look how cruel man has grown, for velling  
Her with concrete & steel.  
The greed for more didn't stop man to jewel her with heavy  
machines.  
But it's never too late to make a difference, a single  
Voice echoes in the silence of ignorance.  
Flowers shall bloom even on the lands of Sahara & Thar  
& man would be awarded existence.  
We don't have to wait for rallies & posters on  
22 April for a new start  
Every day is a new beginning if there's determination inside our  
hearts.

## DOWN THE MEMORY LANE

I could hardly wait for Thursday 17 March 2011. This was the first day as a fresher teacher to the newly opened school Delhi Public School HRIT Campus.

I woke up that morning with worries in my head and butterflies in my stomach as I was to just begin my teaching career. What if I couldn't find the staffroom? What if I forgot to buy my red pens? May be my yellow saree wouldn't be perfect and I fail to impress all. What if I missed the bus or lost my time table or worst if I didn't have anyone in the staffroom to guide me? I was nervous but reluctantly got up and went to school.

But when I reached there, the most wonderful thing happened ... The Principal Ms. Meenakshi Chatterjee greeted us as we were the first batch of teachers of DPS HRIT Campus . She told us how happy she was to see us and I knew by her smile, she really meant it. There were other teachers as confused as me but our Principal came to each one of us. She said she knew just how we felt. She said each one of us was special and we would soon become like a family. We would help each other & take care of each other & learn from each other in all the coming years. Some how her confidence transformed into us. We were infused with energy.

I looked around the school and saw that everything was bright & fresh and colourful. I knew I belonged here.... Teaching would be my choosen profession.

And suddenly I realized all butterflies were gone. The school was not a nightmare after that moment .We planned curriculum , designed almanac , made admissions test, planned for the entire year . It did not feel boring or different for a moment.

New school, New Principal, New project, Teachers starting with new career. Ah..... What a lovely feeling it was ..... I have been enjoying my profession since then.

I owe my professional career as a teacher just to you Principal Ma'am. Thank you so much ma'am for being such a nice mentor.

## Parenting

Children remain Children throughout and Parents remain Parents whatever is the age of children and parents. Parenting is an art and not a science as it does not run on fixed pattern and is not constant , It varies from parents to parents and child to child. The same parents may have to adopt different styles as a pattern of parenting for their children. The style and pattern of nurturing your child grows and changes along with the age. A small word of praise for your child is worth far more than a ton of criticism. Don't tell your children how to do things, tell them what to do and let them find their own creative method of doing. Let them paint the canvas of their life with their own colours. Let them handle the reality of life; don't shield your child from every upsetting situation. Teach them that victory and defeat are both part of life.

Encouraging your child to win is important but it is equally important to teach how to accept defeat gracefully and try harder. Let your child not be afraid of making mistakes. Let him/her know, a mistake is an opportunity, as long as one is ready to learn from it. Encourage your child to take wise decisions. Good decision making ability will make him/her successful in achieving his/her goals.

A child copes well with crises if we mentally prepare them by telling him what is happening. Children should not be expected to behave like adults. But we can surely teach them to do small things in a great way.

Hence respect for the child's feelings should be from the beginning of the relationship. Listen to your child with full attention; this would encourage him to be expressive about his emotions. Your attention towards his feelings will make him realize that he is important thus raising his self confidence.

Give your ears to your child. Listen to them what they want to say. Pay full attention. Don't just hear, but listen attentively to make him feel important. Know your child's needs, discover his interests, help him to come out of his problems and complexities. Listening to your child will also help you to become not only a better parent but also a friend bringing you much closer to your loved ones.

## MUMBAI ATTACKS.....

Everything was just going well,  
As smoothly as a gel.  
Till a day came.  
And made many lives a game.  
The day was 26 November 2008.  
Which made many lives a fate.  
Some were injured and some were dead.  
The scene everywhere was coloured with red.  
Three sites were attacked.  
And many a lives were sacked.  
This was an attack on their hearts.  
As everything flew away like cards.  
Everything ended,

# EXAMINATION PAPER

Examination Paper is an integral and unavoidable part of evaluation system. Every institution assesses the knowledge gained by the students through written papers as well as oral tests. Hence it is an art to prepare a question paper.

For creating a quality question paper, teachers should go through the subject paper of previous years, exercises at the end of lesson in the textbook and learning material of same difficulty level from other books. But, they must never pick up questions from these resources directly. Instead they should change the language and form according to the age group of students they desire to evaluate.

A question paper must have different sections like Fill in the blanks, Multiple choice questions, True or False, Guess these, One word answer, Pick odd one out, Correct the wrong statements, Short answer questions and Long answer

(Essay type) questions. This makes solving the paper entertaining while teachers get to judge all the skills student has mastered and can assess the level of achievement of the student clearly. Each section must be assigned proper marks.

In a question paper, it is essential to ensure that T\F statements are arranged in random order. MCQ'S should have only one correct answer. For match the columns both columns must be on the same page. In short questions : name, list, who, what, when can be asked. In long answer questions: explain, compare, differentiate, diagrams can be asked.

One must use simple child friendly language and avoid the use of passive voice, sentences starting with 'if', repetition of similar questions under different headings in the same question paper.

Question paper must be read atleast once after typing to ensure that there is no spelling mistake or grammatical errors. It must be submitted with a signature and supplemented with a blue print. This shows professionalism of the examiner.

A blue print helps in correcting the question paper. It also shows the examiner's expectations from the examinee leaving nothing to ambiguity.

Last but not the least, question papers must be prepared in advance so that after completion of syllabus proper revision can be undertaken. This would also take off the last minute work load of teacher and examination department.

As we know, each session ends with a report card and begins with a new hope or target that this time 'I WILL TRY TO ACHIEVE MORE'. So, taking into account the feedback of student's performance, opinion of parents and changes in the Education Policy the format of question papers can be improved each year.

## TRY TRY AND TRY

I am not going to worry,  
I am not going to cry,  
If I want success,  
I will stop ahead and try,  
Even if I fail,  
I am not going to cry,  
I will practise more,  
And once again will try.  
One day I will win,  
And my competitors will cry.  
That day, I will try,  
With a resolution in my eye,  
For my golden future,  
Sincerely I will try.  
A dream of success,  
And some steps ahead,  
Will fill my life with happiness.

## BLACK PLANET

The topic I have chosen might have puzzled you. But, my sole purpose of writing this article is to draw your attention towards the dark path we are heading on. The planet we are living on is generally termed as "BLUE PLANET". But, the greediness with which we are exploiting it, a day will come in near future when it will be referred as "BLACK PLANET". What is earth?

**E - Enriching A - Amazing R - Resource T - Treasure H - HUMANS**  
Earth needs to be conserved, if we want to sustain. We must protect it from pollution and over exploitation. Instead of "being human", we are focusing on "being self fish". We must realize our responsibilities before it's too late. We won't stop here and keep on ruining this planet then we have to explore a place to live on the other planets. We are just trying to develop our own species, overlooking the existence of flora and fauna around us. We should question our actions - Do we really call our action as a step towards development, when we are actually murdering brutally the beautiful plants and wildlife around us. It is strange that when we want to spend our holidays and leisure time, we look for a greener place which can bring us close to nature, we find peace over there. But, in true sense we are closing the doors towards nature by destroying it.

मन : मन को साधना वेहद जरूरी है। इसके लिए खुद को नई गतिविधियों और नई संस्कृति में ढालने का प्रयास करें। इस तरह आप अपने अहम के बारे में जानकर उसे संभालना सीख सकेंगे। अगर आप नए लोगों के बीच अलग-अलग महसूस नहीं करेंगे तो आप अपने कठिन समय में भी शांत रहेंगे।

चयन : ओंओ कहते हैं कि पेन पूर्ण बोली में जग जाता जा सकता है। पेन सिर्फ भावना नहीं है। बल्कि यह एक उत्प्रेरक का कार्य करता है जो व्यक्ति को सद्मार्ग पर चलने के लिए प्रेरित करता है।

कर्म : रविन्द्र नाथ टैगोर कहते हैं कि हमारे लिए कोई भी चीज पाना असंभव नहीं है। अगर हम किसी को पाने का लक्ष्य बनाते हैं और उसके लिए दृढ़ इच्छा शक्ति रखते हैं तो उसे पाना कठिन नहीं हो सकता। एक कर्म ही है जिससे हम अपनी पहचान बनाते हैं।

# विचारों की अद्भुत शक्ति

विचार अर्थात मन में उठते भाव। ये भाव या विचार कोई साधारण बात नहीं होते। ये विचार एक शक्ति है। एक ऐसी शक्ति जो जीवन का संचालन करती है। इसकी सामर्थ्य का अनुमान इस बात से लगाया जा सकता है कि इस संसार में जितनी भी शक्तियाँ हैं जैसे धन शक्ति, जन शक्ति या अन्य प्रकार कि दूसरी शक्तियाँ इन सबका संचालन मनुष्य द्वारा किया जाता है। इनका निर्माण मनुष्य ने किया है। जबकि मनुष्य का निर्माण विचार शक्ति द्वारा किया जाता है।

विचार शक्ति एक सजीव मूल्य तत्व है। जो कभी नष्ट नहीं होती। स्वामी विवेकानंद ने विचारों की इस शक्ति का उल्लेख करते हुए बताया है "मनुष्य जैसे विचार करता है उसकी मूल्य तर्गो विश्वाकाश में फैल जाती है। सम स्वभाव के पदार्थ एक दूसरे की ओर आकर्षित होते हैं इस नियम से उन विचारों के अनुकूल दूसरे विचार आकर्षित होते हैं और मनुष्य को वैसी ही प्रेरणा देते हैं। एक ही तरह के विचार एकत्रित होते रहने पर प्रचण्ड शक्ति का रूप धारण कर लेते हैं और मनुष्य के जीवन में जादू की तरह प्रभाव डालते हैं। इससे स्पष्ट होता है कि जीवन में जैसे हमारे विचार होंगे सकारात्मक या नकारात्मक वे वैसे ही विचारों की मूल्य तर्गों को अपनी ओर आकर्षित करेंगे और उनका वैसा ही प्रभाव हमारे जीवन पर होगा। उदाहरणस्वरूप यदि हमारे विचार नकारात्मक हैं तो हम वैसे ही विचारों वाले अन्य व्यक्तियों से प्रभावित होंगे। हमारे कार्य जीवन जैसी मूर्त मुद्दा हाथ भाव जीवन लक्ष्य और अहर्षण का वातावरण भी नकारात्मक ही होंगे। जिसके फलस्वरूप हमें जीवन कष्टों में भग मुश्किल और परम पर दुःखदायी प्रतीत होगा। हर तरफ धम परेशानी ही परेशानी होगी और इंद्रवर का अनमोल तोहफा ये जीवन हमारे लिए एक श्राप बन जायेगा।

दूसरी तरफ यदि हमारे विचार सकारात्मक होंगे तो ये भी सम स्वभाव को आकर्षित करेंगे जिसमें हमारे आम पास के वातावरण में सकारात्मकता की वृद्धि होगी और हमारा जीवन सुखमय बन जायेगा।

अतः हमारे लिए यह परम आवश्यक है कि हम अपने विचारों को सकारात्मक करें और उन्हें रचनात्मक दिशा में लगाएँ ताकि हम अपने जीवन लक्ष्य को प्राप्त कर सकें।

# शिक्षा

शिक्षा का हमारे जीवन में बहुत महत्व है। इसके बिना हमारा अस्तित्व नहीं है। शिक्षा हमारे विचारों व सोच को ऊँचाई प्रदान करती है। शिक्षा हमें अपने अज्ञान के अंधकार को दूर कर उजाले की ओर ले जाती है। हमें अच्छे चुरे की समझ आती है। हमारे मस्तिष्क का विकास शिक्षा से होता है। इसलिए हम सबको मन लगाकर पढ़ाई करनी चाहिए। तभी जीवन में सफलता मिलेगी।

# हमारा भारत वर्ष

हमारा भारत बहुत विज्ञान देश है। जनसंख्या के हिसाब से विश्व में यह दूसरे स्थान पर है। भारत का क्षेत्रफल 178 995 वर्गमील है। भारत में कुल 29 राज्य व 7 केन्द्र शामिल प्रदेश हैं। भारतीय संविधान के अनुसार कुल 22 भाषाओं को मान्यता प्रदान की गई है।

संसार का सबसे ऊँचा पर्वत हिमालय भी हमारे भारत में ही है। जिसकी सबसे ऊँची चोटी माउंट एवरेस्ट की ऊँचाई 8848 मी० है। हिमालय भारत के उत्तर में है और दक्षिण में है हिंद महासागर। इसके पूर्व में बंगाल की खाड़ी व पश्चिम में अरब सागर है। भारत की पवित्र भूमि पर अनेकों महापुरुषों ने जन्म लिया है। यहाँ पर अनेक धर्म और जातियों के लोग बसते हैं। भारत में जनसंख्या गणराज्य शासन प्रणाली है जिसमें प्रत्येक 18 वर्ष से अधिक आयु के व्यक्ति को वोट देने का अधिकार है। सारे देश में से संसद के लिए प्रतिनिधि चुने जाते हैं। भारतीय संसद के दो सदन हैं राज्य सभा व लोक सभा। 1947 में स्वतंत्रता प्राप्ति के बाद 26 जनवरी 1950 को भारत का संविधान बना व इसे गणतंत्र बनाया गया। भारत एक धर्म निरपेक्ष राज्य है जो सारे संसार में शांति की कामना करता है।

# जन्मदिन

जन्मदिन प्रत्येक व्यक्ति के लिए खास होता है। यह हम सभी जानते हैं। पर मैंने भी नर्सरी की कक्षाध्यापिका बन कर जाना कि इस विशेष दिन मेरी कक्षा के विद्यार्थी खुशी खुशी विद्यालय आते हैं। वे बहुत उदास होते हैं जब उनके जन्मदिन के दिन विद्यालय का अर्थका होना है। मन में प्यार आया कि ऐसा क्यों होता है?

उत्तर विद्यार्थियों से मिला मैं सभी विद्यालय में अपनी कक्षा में आज हम खास हैं। आज सभी विद्यार्थी हमारे लिए तैयारियाँ बजाएँगे।

प्रधानाध्यापिका जी हमसे हाथ मिलाएँगी वधाई देंगी और गले लगाएँगी। प्रधानाध्यापिका जी द्वारा दिया गया उपहार कक्षाध्यापिका हमें देती हैं। कंक कटवाती हैं और फोटो खींचती हैं। वे हमसे वादा लेती हैं कि हम अंग्रेजी में बोलेंगे और सफाई में लियेंगे।

इस दिन ऐसा अनुभव होता है कि मैं सबसे खास हूँ और मेरा भी महत्व है। डी० पी० एम० एच० आर० आई० टी० कैम्पस को ऐसे सुहाने पल देने के लिए धन्यवाद। मेरे जन्मदिन को खास बनाने के लिए धन्यवाद। कक्षा जन्मदिन साल में दो बार आए।

# संगीत

संगीत एक ऐसा सर्वव्यापी विषय है जो सभी के जीवन में मधुरता लाता है। एक ऐसा व्यक्ति जो धारों और से निराशा से घिरा हो उसका मन भी संगीत सुनकर उल्लास से भर जाता है। वैज्ञानिकों के अनुसार पेड़ पौधे भी संगीत सुन कर जल्दी बढ़ते हैं। श्रीकृष्ण की वासुदेव सुनकर तो सभी गाएँ एवं पशु पक्षी मंत्र मुग्ध हो जाते थे। हमारे देश में तो कोई भी उम्रव या त्योहार संगीत के बिना अधूरा है। संगीत ऋषि मुनि और देवताओं के समय से ही प्रचलन में है। सरस्वती को संगीत की देवी कहा जाता है। गायन वादन और नृत्य तीनों कलाओं का मिश्रण ही संगीत है। संगीत को साधना करने से मन शांत होता है। संगीत को साधना करके हम अपने मन के तार अशौकिक शक्ति से जोड़ सकते हैं। धर्म चाहे कोई भी हो परन्तु संगीत के द्वारा जैसे भजन श्रवण और आयतें आदि गाकर और पढ़कर परमात्मा परमात्मा का गुणगान किया जाता है। प्राचीन समय में शास्त्रीय संगीत का महत्व था। हमारे देश में कई महान शास्त्रीय गायक व गायिकाएँ हुए हैं। परन्तु आधुनिक समय में फिल्मी तथा लोक संगीत का प्रचलन बढ़ गया है। समय स्थान और धर्म चाहे जो भी हो किन्तु संगीत हमारे जीवन में हमेशा एक महत्वपूर्ण भूमिका निभाता रहा है। संगीत हमारे अनमोल धरोहर है। हम चाहे कितने भी आधुनिक क्यों ना हो जाएँ हमें अपने प्राचीन शास्त्रीय संगीत को भूलना नहीं चाहिए और अपनी आने वाली पीढ़ी को इसे विरासत में देना चाहिए। केवल अपने देश में ही नहीं बल्कि संगीत के द्वारा हम संसार के सभी देशों में अमन और शांति बनाए रखने में सहयोग दे सकते हैं।

# बेटियाँ

- आपका घर चढकने को मैं
- घर लेती बुलबुल का रूप।
- मेरा हाथ धामकर देखो
- मिलेगी स्नेह की मुसमुनी सी धूप।
- मेरी हँसी से गूँज उठेगा
- आपके घर का हर एक कोना।
- कोशिश करूँगी मेरे कारण,
- कभी आपको पड़ ना रोना।
- सुखियों के सारे अक्सर,
- न होंगे पूरे मेरे बिना।
- जब भी कष्ट में होंगे आप,
- बन जाऊँगी मैं भी सहाय।
- मुझे भी हक दे दो माँ इतना
- बनूँ आपकी आँखों का तारा।
- सृष्टि का आधा हिस्सा हूँ
- ये सब कैसे भूल जाते हैं ब्र
- कंठे को जन्म देने के लिए
- किसी की बेटि ही तो घर बनाते हैं।

- बेटि जन्म नहीं लेगी तो
- अनुशात का चक विगड जाएगा।
- हर बेटे का परिवार एक
- बहू के लिए तरस जाएगा।
- मेरे बिना पुरा न होगा
- आपका ये मुँदर परिवार।
- इस संसार में आने का
- मुझको भी दे दो अधिकार।

# राष्ट्रभाषा हिन्दी

विश्व की सबसे पुरानी व भारत की दूसरी भाषाओं की अपेक्षा सबसे अधिक बोली जाने वाली हमारी राष्ट्रभाषा 'हिन्दी' है। भाषा की महत्ता सुन्दर होने में नहीं बल्कि अर्थपूर्ण होने में है। संविधान की धारा 343 के अनुसार 14 सितम्बर 1949 को हिन्दी को भारत की राष्ट्रभाषा घोषित किया गया। हमारे प्राचीन साहित्यकारों के साहित्य व रचनाओं के कारण इसका जलकाँडा अत्यंत समृद्ध एवं विज्ञान है। देवनागरी लिपि विश्व की सर्वाधिक वैज्ञानिक लिपि है। अन्य भाषाओं में भी इस लिपि को विभिन्न रूपों में प्रयोग किया गया है। अहिंदी भाषी भी टूटी फूटी हिन्दी बोल लेते हैं। यह सत्य है कि व्यक्ति के व्यक्तित्व का संपूर्ण विकास उसकी मातृ भाषा द्वारा होता है व्यक्ति की मातृ भाषा उसके व्यक्तित्व की नींव रखने में सहायता करती है। उसे विचार अभिव्यक्ति की पूर्ण स्वतंत्रता प्रदान करती है। हिन्दी भाषा व्यक्तित्व के विकास व भाषा की जग में वृद्धि की इस कमीटी पर पूरी तरह खरी उतरती है। आवश्यकता केवल इस बात की है कि हम इसके प्रचार और प्रसार में कमी कमी न आने दें और अपने प्रयासों द्वारा इसे सफल सञ्जत व मजबूत बनाएँ।
