Message by Mr. Vineet Joshi

It gives me an immense pleasure to learn that “**DELHI PUBLIC SCHOOL HRIT CAMPUS, GHAZIABAD**” is bringing out its Second Edition of School Magazine **DREAM WEAVER**.

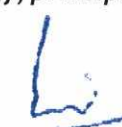

In today’s world, the role of schools has under gone a lot of transformation. Along-with pursuing academic excellence, today’s schools also have to motivate and empower the students to be lifelong learners, critical thinkers and productive members of an ever-changing global society. Schools must try to provide the students with an atmosphere for multifaceted development, where students are encouraged to channelize their potential by providing them with a platform to think, express and exhibit their skills with the teacher being a facilitator.

The school magazine is a platform for the students to voice their thoughts, ideas, views and imagination in the form of literary and artistic compositions. It further reiterates the spirit of CCE. It also mirrors the image of the school as it reflects the hopes, aspirations and achievements of school.

The concept of Continuous and Comprehensive Evaluation assumes enormous significance in this context. By nurturing all the three domains of human personality, i.e., the cognitive, the affective and the connective, and by catering to multiple intelligence in a continuous manner, schools, through CCE, will be able to create complete human beings.

I am happy to learn that the school is imparting quality education & gives equal importance to co-curricular activities for all round development of children and hope that this Magazine will reflect the achievements of the institution, contribution of teachers and students. I am also sure with the unswerving efforts of you all; the school will attain new heights of excellence in all the fields of education, thus reflecting the spirit behind CCE and other initiatives of the Board.

My best wishes to the students, teachers, staff, principal and management of the school.

Chairman's Message

Moving towards its fourth year, Delhi Public School HRIT Campus has earned a good reputation in the field of academics together with cultural and sporting events. This is evident from the fact that the school is adding another section of **CBSE-i** to its existing classes.

The success of **Delhi Public School HRIT Campus** in such a short span of time is due to the hard work and dedication of the Principal, Teaching Faculty, Staff and active cooperation of the Parents who believe in constant improvement and up-to-date teaching strategies. The school offers a variety of learning opportunities through organising debates, music, dance, drama and sporting competitions etc. I hope the school's glossy magazine will give a clear idea of values and facilities that will be available to the students of classes Pre Nursery to Senior Secondary Level. I am confident that **DPS HRIT Campus** will play a vital role of educational leadership in the state of Uttar Pradesh in the near future. I want to congratulate the editorial board and all my scholars who have contributed to this splendid second edition.

An Apostle of school

From Principal's Desk

I love working with students. Unlike the grownups, their dreams have no ceiling. It's inspiring to listen to their thoughts. They often dream of a golden future, prosperity, higher education and a magnificent career. Often then not, their dreams are huge.

Let us believe in their dreams and increase their chances of turning each into a reality. Our goal as a parent or as a school is to provide a path to follow their aspirations without crushing them in the beginning calling them 'unrealistic'. Let us set a good example by pursuing our own dreams. Success and wealth are products of a process, anyone can achieve them. A child who grows up in a successful environment will eventually adopt the process to become successful and vice versa. However, it is important to inculcate commitment and sense of responsibility towards turning one's dream into a reality.

Our Magazine **Dream Weavers** is an apt example that dreams seen can be achieved through hard work and commitment. I congratulate the editor Geetanjali Sagar Chopra and her team of teachers and students who have turned this dream into a reality.

Let us then make ourselves a heaven of positive thoughts and outlooks and enjoy the flight of our **Dream Weavers**.

"It is difficult to say what is impossible, for the dream of yesterday is the hope of today and the reality of tomorrow."

Phenomenous Persona

It is a privilege for me to be the School Captain of this esteemed institution in which I have been studying for the past four years. Our beloved vanguard has played an important role in lifting its students' vision to high sights, elevating their performance to a high standard, and building their personality beyond its actual limits.

My dear friends, we all have a leader within us. It is an individual, who possess the qualities to make history but not the other way round. In the absence of leadership society stands still. Progress occurs when courageous, skillful leaders seize the opportunity to change the things for better.

We all should have a vision. A vision upon which we should articulate clearly and forcefully on all occasions.

So my friends, recognize the leader within you and work with full enthusiasm and exuberance to achieve your goals, because Leadership is nothing, but the capacity to transform vision into reality. Remember the great works of Swami Vivekanand, "Arise! Awake! Know your strength and do not stop until your goal is reached. "Measure of a human is not where he/she stands in moments of comforts, but where he/she stands at the times of challenge and reality." So do not be afraid of obstacles try your best to overcome them. In case, you fail you should cumulate all your spirits and labor with sheer determination to rise like a Phoenix.

I will try my best to do full justice to this responsibility bestowed upon me as I believe in the words of **Nelson Mandela** that *"It is better to lead from behind and put others in front especially when you celebrate your victory, and take the front line when there is danger"*.

School Captain's Message

DPS HRIT Campus is a symbol of good quality education & focuses on all round development of its students. The school has enriched our vision and ability in various ways. The Principal Meenakshi Chatterjee and dedicated teachers develop innate qualities of each learner. The school has provided adequate platform by organizing trips, various competitions and bagful social and cultural activities. I feel privileged to study in a British Council and CBSE i affiliated school which is adding to its International Dimension. There is an environment of affection for all and respect for self which I feel is most incredible.

I feel very proud and honored to be the Vice Captain of my dream school. Our goal is to make sure that everyone feels safe, enjoys their learning journey and has the best possible experience.

We want to be positive role models to our younger students and be people they can look up to in the forthcoming years. Our advice to them is to just enjoy their experience and make the most of school whilst they have the chance. We want to encourage them to be inspired to push themselves and achieve the best they can.

We know that united we stand and divided we fall. So throughout this academic session we will try to work together as a team and will always standby each other because we believe that **UNITY** is strength. **According to Mattie Stepanek, "When there is team work and collaboration, impossible things can be made possible."**

Today I promise to leave no stone unturned to make my school proud of our association. I appeal to my fellow students to work hard together as a team and always stand by each other as we believe **UNITY** is strength.
